

Kineo User Documentation

Program ID: IMS	Author: Kent Edcel J. Genovia	
1.	Open Simulator → Click Device → Enter a specified device of liking	
2.	Open file in Virtual Studio Code → Type “npx expo start - - ios”	

3.	Click the Sign in button to enter the application using email and password.	 A screenshot of a mobile application's login screen. At the top, there's a header with a blue background and a white mountain landscape. Below the header, a back arrow is on the left, and the text 'Ready To Get Travellin'?' is in the center. There are two input fields: 'Email' with a placeholder 'Enter Email' and 'Password' with a placeholder 'Enter Password'. Below these fields are three buttons: a solid blue 'Sign In' button, a white 'Create Account' button with a blue border, and a blue text link 'Continue as Guest'.
4.	Click Create Account Button to create an account	 A screenshot of the same mobile application's login screen as in the first row. The layout is identical, showing the header, back arrow, title, input fields for email and password, and the 'Sign In', 'Create Account', and 'Continue as Guest' buttons.

5.

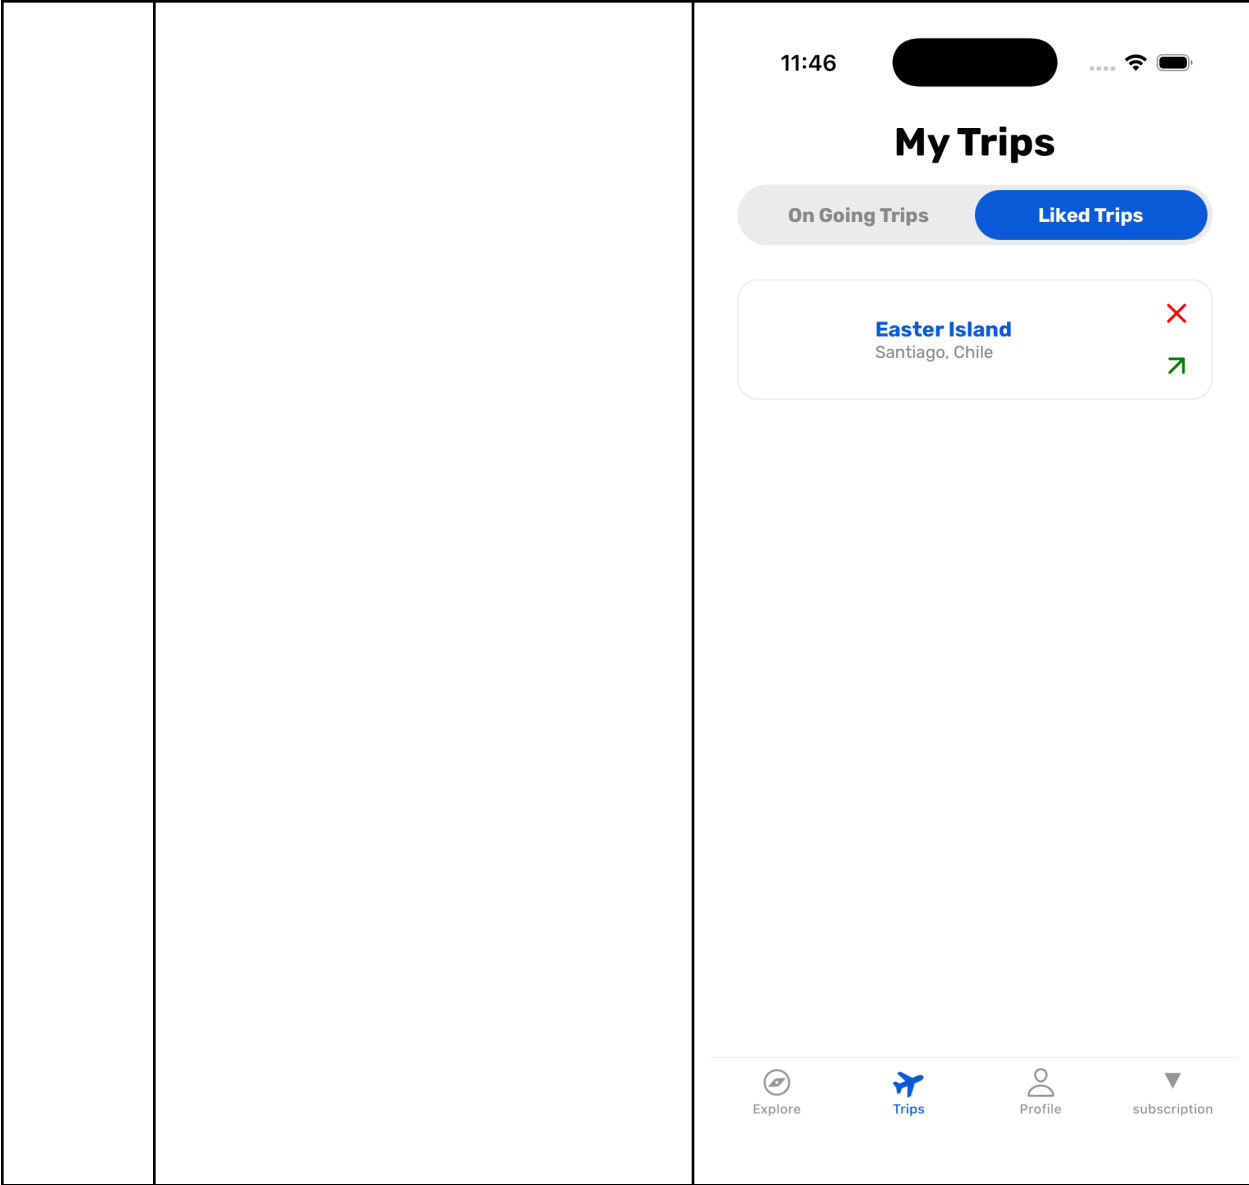

Click Continue as Guest Button to enter the application without signing in or creating an account

6.

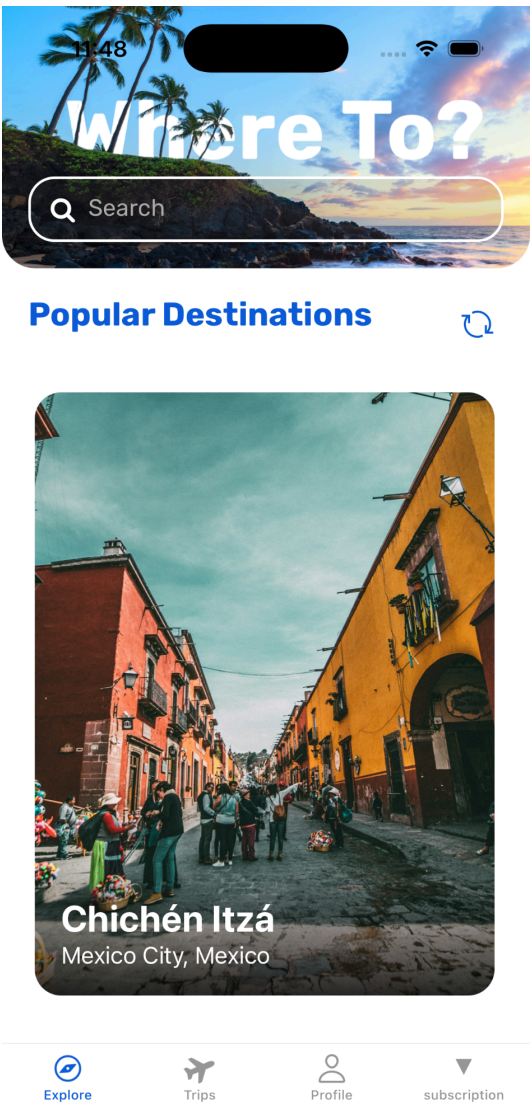

Like destination - If the user likes the destination, they just swipe left. It will automatically show up in the Liked Trips in the Trips Page.

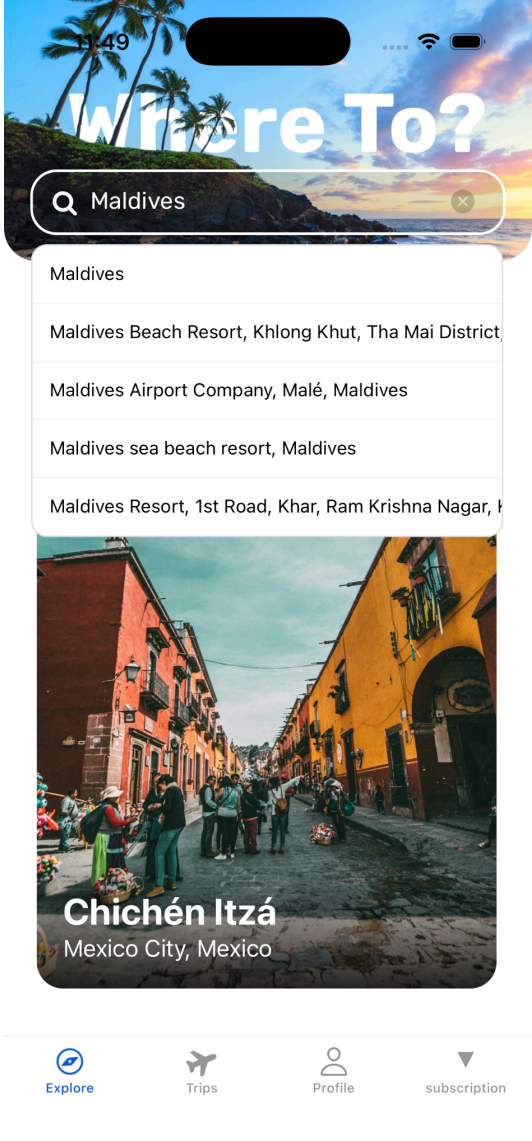

7.

Refresh - when it is clicked, 10 new destination cards will show up.

8.	Google Search Autocomplete - when a user searches for a specific destination, in the search box, it will show possible place recommendations according to the user's wants. When clicked, user will be redirected to the travel details.	 The screenshot displays a mobile application interface. At the top, the title 'Where To?' is prominently displayed in white over a background image of palm trees and a sunset. Below the title is a search bar containing the text 'Maldives'. A dropdown menu is open, showing a list of suggestions: 'Maldives', 'Maldives Beach Resort, Khlong Khut, Tha Mai District', 'Maldives Airport Company, Malé, Maldives', 'Maldives sea beach resort, Maldives', and 'Maldives Resort, 1st Road, Khar, Ram Krishna Nagar, K'. Below the search bar is a featured location card for 'Chichén Itzá, Mexico City, Mexico', which includes a photograph of a street scene with people and colorful buildings. At the bottom of the screen, there is a navigation bar with four icons: 'Explore' (a magnifying glass), 'Trips' (an airplane), 'Profile' (a person icon), and 'subscription' (a downward arrow).
9.	Travel Details - in this page, users will have to pick specific travel dates, who they can travel with, and the estimated budget.

10.	Trip Review - when “Continue” is clicked, trip review will have the important travel information. Users will have the option to edit by clicking the pencil icon.	 The screenshot shows a mobile application interface for a 'Trip Review' screen. At the top, the status bar displays the time 11:53, a black pill-shaped notch, and icons for cellular signal, Wi-Fi, and battery. Below the status bar is a back arrow icon and the title 'Trip Review' in blue. The main content area lists trip details: 'Trip Name' with a 'Customize Name' button; 'Destination' as 'Maldives' with a location pin icon; 'Travellers' as 'Alone' with a group of people icon; 'Dates' as '27 May to 28 May (2 days)' with a calendar icon; and 'Cost' as 'Economy, 1000 to 1999 AED' with a coin icon. At the bottom, there is a pencil icon and a large blue button labeled 'Continue to Trip'.
-----	---	---

11.	Continue to Trip - Gemini will create the whole itinerary based on the user's travel preferences. This part may take a minute to finish.	 The screenshot shows a mobile application interface. At the top, the status bar displays the time 11:53, signal strength, Wi-Fi, and battery icons. The app's header is titled 'Trip Review' in blue, with a back arrow on the left. Below the header, there is a blurred section for 'Trip Name'. A large white modal is centered on the screen, featuring a blue airplane icon flying upwards. Below the icon, the text 'Generating the best trip for you...' is displayed in blue, followed by a blue loading spinner. At the bottom of the modal, a blue button with the text 'Continue to Trip' is visible. The background of the app is dark grey.
-----	---	---

12.	On Going Trips - In the Trips Page, On Going Trips hosts all of the trips. When the green arrow is clicked, user will be redirected to the itinerary itself.	
-----	--	---

13.

Travel Itinerary - this shows the whole Itinerary from day 1 to the last day of the trip as well as the hotel recommendation.
